1. Introduction

Consistent with the National Safety and Quality Health service Standards: Standard 9 Recognising and Responding to Clinical Deterioration, the Bunbury Hospital has established an escalation procedure for Maternal and Newborn medical emergencies. This escalation procedure should be read in conjunction with the WACHS [Clinical Escalation of Acute Physiological Deterioration Including Medical Emergency Response \(MER\) Policy](#).

Maternity and newborn care is a specialised area and is often already staffed by the most appropriate responders to clinical deterioration. This procedure is to provide further clarification of the specialist staff to be contacted immediately and the actions required in the event of suspected clinical deterioration of the maternal or neonatal patient within the Maternity Unit of Bunbury Hospital.

2. Procedure

2.1 Indications for Obstetrician and/or Paediatrician Emergency Response

Escalate response as per Observation and Response Chart (ORC), or if clinical concerned, or if family and or carer indicate concern as per REACH.

Specialist staff including Obstetricians and/or Paediatricians are required to be contacted immediately in the following situations:

Indications for Maternity Medical Emergency Response - Obstetrician
· As indicated by the Maternal Observation and Response Chart (MR140B)
· Undiagnosed breech with imminent birth
· True shoulder dystocia
· Eclamptic seizure
· Imminent birth preterm <35 weeks
· Uterine inversion
· Significant APH or PPH
· Prolonged fetal bradycardia – unresponsive to first aid measures
· Suspected ruptured uterus
· Umbilical cord prolapse
· Maternal compromise

Indications for Maternity Medical Emergency Response - Paediatrician
· As indicated by the Newborn observation and Response Chart (MR140D)
· Anticipated neonatal compromise with imminent birth
· Neonatal Compromise

3. Roles and Responsibilities

Action Card 1 – Primary Midwife

- Call for assistance by pushing “staff assist” button.
- If assistance not timely or concerned at any stage, initiate **Maternity Code Blue** response by pushing Code Blue button or dialling 55 and stating type of emergency and location.
- Initiate BLS and ALS (where competent) care until MER Team arrive.
- Communicate patient’s condition, history and progress effectively using ISOBAR.
- Document observations and escalation of care appropriately.
- Ensure resuscitation trolley nearby if MER criteria identified.
- Ensure patient notes and ORC charts are available at the bedside.
- Follow instruction by the MER leader and deliver appropriate care within scope of practice.

Action Card 2 – Maternity Ward Shift Coordinator or Appropriate Clinical Delegate

- Attend location of “staff assist” call.
- Assess the patient.
- If indicated and not already done; activate **Maternity Code Blue** response by pushing Code Blue button on Maternity Ward and calling Switchboard Operator on 55 and state:
 1. type of emergency incident – **Maternity Code Blue**; either **Obstetrician** and/or **Paediatrician**.
 2. exact location i.e. Bunbury Hospital Maternity Ward and room number.
- Maternity Coordinator or delegate to phone Obstetric and/or Paediatric consultant on-call and notify of the following:
 1. the exact location i.e. hospital, ward and room
 2. the type of incident – Maternity Code Blue; **Obstetrician** or **Paediatrician** (including relevant clinical information)
 3. and ascertain estimated time of arrival.
- Assist primary Midwife with BLS and ALS (where competent) until MER Team arrive.
- Coordinate the notification of other members of Obstetric and/or paediatric team i.e. registrars if time allows.
- In case of Cat 1 Caesarean: proceed to theatre when Theatre Coordinator approves transfer of patient.
- Coordinate care of family members and other patients
- Coordinate the transport of the patient to a higher care facility if required.

Following the event:

- complete Datix Clinical Incident Management System ([Datix CIMS](#)) form
- arrange debrief
- schedule case review if required
- notify senior managerial staff e.g. Coordinator of Nursing and Midwifery

Action Card 3 – Switchboard Operator

- Record information on Emergency Code Action log.
- Initiate **Maternity Code Blue** block page – stating Maternity Code Blue **Obstetrician** and/or **Paediatrician** and exact location e.g. 'Maternity Code Blue – Obstetrician and Paediatrician, Bunbury Hospital Maternity, Number of room'.
- Announce over public address system twice clearly "Attention... Maternity Code Blue Obstetrician and/or Paediatrician, Bunbury Hospital, Maternity Ward, Number of room".

Maternity Code Blue Paging Group Obstetric / Paediatric	
Designation	Paging Number
Maternity Nurse Unit Manager	170
Clinical Midwifery Specialist	444
Roving Patient Care Assistant	208
Maternity Patient Care Assistant	203
Hospital Coordinator After Hours	200
Maternity Ward Coordinator	166
Obstetric Registrar	237
Paediatric Registrar	-
ED Senior Medical Officer	267
MER ED Registered Nurse	275
Duty Medical Registrar	204
ICU Registrar	439

Action Card 4 – On-Call Obstetric Consultant or Senior Registrar in Attendance

- Attend location of **Maternity Code Blue** as soon as notification received.
- Determines if Category 1 caesarean section is required.
- Communicate effectively with all team members using iSoBAR.
- Provide appropriate medical intervention as required.

If Category 1 caesarean section is required; (the Registrar may delegate this responsibility to an appropriate medical delegate, if unable to do so themselves).

In hours:

- Phone the Theatre Coordinator (ext. 1264), the Anaesthetist (Switchboard to connect call) and the on-call Paediatrician (Switchboard to connect call).
- Provide information for the Paediatrician, Theatre Coordinator and Anaesthetist including location required to attend and relevant clinical detail.
- Proceed to theatre when Theatre Coordinator approves transfer of patient.

Out of Hours:

- Phone Hospital Coordinator After Hours (ext. 1262) to advise Category 1 Caesarean Section required.
- Proceed to theatre when Theatre Coordinator approves transfer of patient.

Action Card 5 – On-Call Paediatric Consultant

- Attend location of **Maternity Code Blue** as soon as notification received.
- Guide, support and provide intervention treatment in consultation with clinical staff present.
- Delegate retrieval of additional equipment/medications to an appropriate nursing or other staff member as required.
- Ensure adequate documentation completed.

Action Card 6 – Code Blue Team Medical Officers

- Be Advanced Life Support (adult/paediatric/neonatal as required for the situation) competent and experienced staff member.
- Immediately attend location of incident.
- If unable to attend location of incident, due to involvement in clinical procedure, dial 55 and advise Switchboard Operator.
- Guide, support and provide intervention treatment in consultation with clinical staff present.
- Communicate effectively with all team members.
- Team leader will identify the tasks or roles required specific to the emergency.
- Team Leader will coordinate and delegate roles in accordance with priority of need and in consideration of skill levels/competency/scope of practice.
- Delegate retrieval of additional equipment/medications to an appropriate nursing or other staff member.
- Ensure situational awareness of immediate and surrounding environments including the delegation of care of all other patients to appropriate personnel.
- Maintain a safe working environment.
- Ensure adequate documentation completed.
- Provide Clinical handover to patient's home team or ICU.
- Return to normal work area when situation is controlled.

Action Card 7 – Code Blue Team (MER)

- Attend location of **Maternity Code Blue**.
- Bring MER Trolley from the Emergency Department (ED).
- Provide clinical support, guidance and attain additional medications / resources as required.

Action Card 8 – Hospital Coordinator

- Attend location of **Maternity Code Blue**.
- Assess situation and identify if additional resources are required.
- Provide support or assistance as required including scribing.
- If Category 1 Caesarean required contact on-call theatre and anaesthetic staff (after hrs).

Action Card 9 – All Staff

If at any time the escalation process is not progressing in a timely manner, the staff member may contact the Coordinator of Nursing or Medical Administrator for advice or assistance.

4. Compliance

Failure to comply with this procedure may constitute a breach of the WA Health Code of Conduct (Code). The Code is part of the [Employment Policy Framework](#) issued pursuant to section 26 of the [Health Services Act 2016](#) (HSA) and is binding on all WACHS staff which for this purpose includes trainees, students, volunteers, researchers, contractors for service (including all visiting health professionals and agency staff) and persons delivering training or education within WACHS.

WACHS staff are reminded that compliance with all policies is mandatory.

5. Evaluation

This procedure is to be reviewed every two years (or sooner if required).

6. Standards

[National Safety and Quality Healthcare Standards](#) (Second edition 2017) - 8.1, 8.2, 8.3, 8.4, 8.5, 8.6, 8.7, 8.8, 8.9, 8.10, 8.11, 8.12, 8.13.

Appendix 3 – Switchboard Operator Emergency Code Action Log

This log is to be used to record all actions taken by a Switchboard Operator during an Emergency situation. Information that is to be included is - names of callers, details of calls, details of actions taken, date/times actions taken. Signature/initials can be provided after the situation, but are to be signed for by the person who took the action. A new sheet is to be completed for each emergency code. Once complete this is a legal document.
