

Acute Stroke Clinical Standards and Guidelines – Endorsed for Use in Clinical Practice Policy

1. Background

The WA Country Health Service (WACHS) seeks to provide direction and guidance to all staff through the availability of appropriate evidence based guidelines and procedures. It is envisaged that this information will assist in the efficiency and effectiveness of the organisation in meeting current legislation and the key principles of quality improvement.

2. Policy Statement

Whole of WA Health policy documents are the overarching policy documents that must be complied with by all WA health system staff. To complement these documents, the WACHS has endorsed specific policies, guidelines and procedures covering a range of issues related to clinical practice. WA health system wide and WACHS policy documents are available via the [HealthPoint Policies](#) intranet site.

The WACHS endorses the:

1. [Stroke Foundation Clinical Guidelines for Stroke Management](#)
2. [Acute Stroke Clinical Care Standard 2019](#)
3. [WA Department of Health Protocol for Intravenous Thrombolysis in Acute Ischaemic Stroke - 2022](#)

External sources that are endorsed for use in WACHS clinical practice provide a standard for clinical governance and service delivery, and provide a range of information and evidence-based practice to support best practice by all staff for country health patients and clients.

When applied, the information contained in these guidelines must take account of the context and scope of practice, level of service delivery and facility capacity.

These guidelines do not indicate an exclusive course of action or serve as a definitive mode of patient care. Variations that take into account individual circumstances, clinical judgement, scope of professional practice and patient choice, may be appropriate dependent on the health care setting.

While every reasonable effort is made to ensure the accuracy of the information contained in these guidelines, no guarantee can be given that the information is free from error or omission. Users are strongly recommended to confirm by way of independent sources, that the information contained within these guidelines and procedures is correct, especially drug doses that may change from time of publication.

3. Standards

[National Safety and Quality in Health Service Standards](#) – second edition: 1.1, 1.6, 1.7, 1.23, 1.27, 1.30a, 2.1, 2.10, 4.11, 4.13, 4.15, 5.1, 5.5, 8.4.

4. References

National Stroke Foundation's [website](#) and linked [professional development modules](#)
[Australian Commission on Safety and Quality in Health Care Acute Stroke Clinical Care Standard website](#)

5. Compliance

Failure to comply with this policy may constitute a breach of the WA Health Code of Conduct (Code). The Code is part of the [Integrity Policy Framework](#) issued pursuant to section 26 of the [Health Services Act 2016](#) (WA) and is binding on all WACHS staff which for this purpose includes trainees, students, volunteers, researchers, contractors for service (including all visiting health professionals and agency staff) and persons delivering training or education within WACHS.

WACHS staff are reminded that compliance with all policies is mandatory.

6. Roles and Responsibilities

6.1 WACHS Executive Directors of Medical and Nursing and Midwifery Services, and the Chief Operating Officer - Strategy and Reform are responsible for:

- acting as the principal endorsement authority for external organisations' clinical policy documents.

6.2 WACHS Area and Regional Medical, Nurse, Mental Health, Aged Care and Population Health Directors are responsible for:

- participating in the review for appropriateness of external organisations' clinical policy and guideline documents for use by clinicians within the WACHS.

6.3 All WACHS clinicians are accountable for their own practice and are to provide care:

- within their registration status
- in accordance with the codes and guidelines approved by their relevant National Board supported by AHPRA
- within their scope of practice and competence
- within their prescribed responsibilities and duties as defined in their Job Description Form (JDF)
- within the context of practice that they are operating.

7. Records Management

All WACHS clinical records must be managed in accordance with [Health Record Management Policy](#).

8. Evaluation

The number of reportable clinical incidents or near misses relating to inappropriate care provided by clinicians.
