

NHET Sim Workshop C2

Being a Simulation Educator – 1 Day Course

Kalgoorlie – 23 May 2024

The National Health Education and Training in Simulation (NHET-Sim) program is a nationwide training program for healthcare professionals and their educators aimed at improving clinical training capacity.

This core module covers basic principles of simulation with a focus on educational design for simulation scenarios, briefing and debriefing practices. We consider what it means to be a simulation educator.

By attending the workshop, this module facilitates formation of a local community of practice by bringing participants together to discuss and practice Simulation Based Education (SBE) and training techniques. Participants have access to the NHET Sim e-learning materials to support the workshop

Eligibility: For anyone who currently or intends to use simulation as an educational method to support The development of healthcare professionals.

Cost: FREE for WACHS Staff
\$550 for external applicants

Expressions of Interest: WACHS Staff - To register your interest, please [click here](#) or scan the QR code below and lodge an online application by **COB 23 April 2024**. Successful applicants will be notified via email shortly after.
