ROTATION OPPORTUNITY IN COUNTRY WA

Narrogin Health Service

Living and working in Narrogin

Narrogin is home to some of WA's most productive agricultural farmlands and offers a rural lifestyle to those who seek the peace of the country with reasonable proximity to the city.

Enjoy the many bushwalks through Foxes Lair Natural Park, the nocturnal tours in the Dryandra National Park, the pioneer architecture of the Town Hall and the Old Courthouse Museum on your days off!

Narrogin Health Service has a number of services:

- 24-hour emergency care
- Acute medical services
- Cancer care, medical imaging, obstetrics services, palliative care
- Outpatient assistance and surgical services
- Various visiting specialists that provide cardiology and audiology services

Rotations available in 2027:

Employer	Intern	Resident Medical Officer
Joondalup Health Campus	Emergency Medicine	General Medicine

Current at time of publishing - subject to change

Supporting your move

Relocation

Narrogin is only two-and-a-half hour scenic drive from Perth. Any junior doctors rotating to Narrogin will be rostered off the Sunday directly before their rural term to cater for travel time. You are strongly encouraged to have your own car as public transport is very limited in Narrogin.

Kilometre usage applicable to a return trip may be claimed at the commencement and conclusion of your employment.

Accommodation

Junior doctors are offered very spacious sole or shared junior doctor accommodation within walking distance from the hospital. All housing is fully equipped with furniture, bedding, a washer, dryer, airconditioning, television, unlimited WiFi access and all tools required to cook at home.

You must complete an *Accommodation Request Form* detailing any special requirements so we are able to allocate you appropriate housing if available. Seconded JMOs are not required to pay for accommodation expenses.

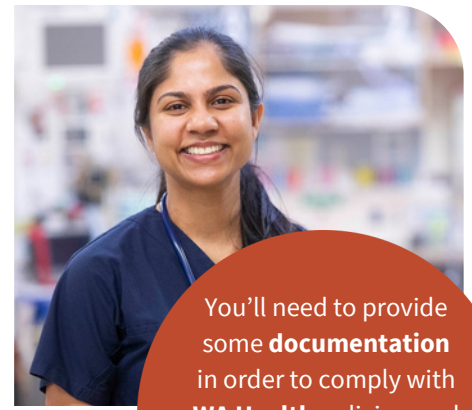

Get involved

There's plenty of opportunities to get involved in the community:

- Visit the [Narrogin & Districts Events Facebook page](#), to stay in the loop about local events.
- Narrogin has a friendly team of doctors, nurses and allied health workers - embrace the opportunity to work with a positive, tight-knit workplace!
- Join in with your newfound colleagues on the many shared teaching opportunities, social activities and local sports.
- There is a great opportunity to provide teaching and mentoring for medical students if you want to get involved.

See what a day in the
life of a JMO in
Narrogin is like!

You'll need to provide some **documentation** in order to comply with **WA Health** policies, and for us to best assist with you with a **smooth transition**.

Requirements

All doctors working at a WA Country Health Service site must have a current:

- Working with Children's Check
- Australian National Police Clearance or Criminal Record Screening
- Pre-Employment Health Assessment Form (N10) (we will contact you via email on how and when to complete this)
- Medicare provider number for your WA Country Health Service site and any other regional site you will be working at. To apply:
 1. Register via PRODA to apply for a provider number online.
 2. Once you have created an account, you will need to enter your WA Country Health Service site details.
 3. Notify your employing hospital of your new provider number/s.

The WA Health Health Care Worker Immunisation Policy requires all doctors working at WA Country Health Service to be immunised for: Diphtheria, tetanus and pertussis (dTpa), Hepatitis B, Measles, mumps and rubella (MMR), Varicella, Influenza, Hepatitis A (as required), and other vaccinations that may become a requirement as directed by WA Country Health Service in the future.

Rosters and leave

- You'll receive your term roster from the Narrogin MEO at least two weeks prior to your commencement.
- Any leave requests once you've commenced your term must be approved by your Head of Department and a Leave Form submitted to the Narrogin MEO.

Orientation and education

- Hospital and departmental orientation commences on the first Monday of your rotation.
- You will complete a beginning of term discussion with your term supervisor.
- A swipe card and IT access will be arranged for you by the local administrative team.

Educational activities will be incorporated into your work hours, including formal face-to-face teaching. Additionally, you will have access to bedside teaching, observation, external education sessions, staff meetings and case discussions. Virtual educational programs are also offered by the Central Medical Education Unit.

Assessment and support

Your term supervisor will provide feedback on your progress through EPAs, mid- and end-of-term assessments through Clinical Learning Australia, and transfer with your profile.

The local and central Medical Education Unit teams are always available for support and assistance, so don't hesitate to reach out!

Contacts us

For more information, please contact your local Medical Education team or the WACHS Medical Education Unit.
