WA Country Health Service

Bunbury Regional Hospital

Start your country adventure

- ✓ **Work to your full scope**
- ✓ **Be part of a close-knit and supportive team**
- ✓ **Have the adventure of a lifetime**

The Midwifery Unit at Bunbury Regional Hospital is the regional resource centre for maternity services in the South West, providing support to five district birthing hospitals and a number of non-birthing sites.

Midwives are encouraged to utilise their full range of skills and scope. Our Midwifery Group Practice team and antenatal classes are award-winning services and we are committed to ensure that we continue to be a leading maternity service in WA Country Health Service.

Our staff development team provide expert support to new and developing team members and there are a multitude of opportunities for innovative midwifery staff to take on portfolios and help lead the exciting changes occurring here at Bunbury Regional Hospital. We welcome both single registration and dual registration midwives to be members of our team, with family friendly, flexible rostering and 12-hour shift options also part of our ethos.

The vision for Bunbury is to take a lead role in supporting teaching, training and research. Now is the time to come on board and join our diverse team of dedicated midwives.

Bunbury Regional Hospital is country WA's busiest hospital and the hub for all South West health services.

We provide:

- ✓ Midwifery Antenatal Clinic
- ✓ Maternal Fetal Assessment Unit
- ✓ Antenatal Doctor Clinic
- ✓ Level 2 Special Care Nursery
- ✓ Inpatient services for pregnancies of all risk levels
- ✓ Postnatal Visiting Midwifery Service
- ✓ Antenatal classes

We deliver 100 babies each month.

Excellence in country maternal and newborn care

WA Country Health Service strives to provide excellent maternal and newborn care to country women and their families, supporting them to remain closer to home and on country where possible.

We believe working with women and families during pregnancy and into early childhood provides the opportunity to improve the health of women and babies immediately, with flow-on benefits to the wider community for generations to come.

We offer supportive, collaborative maternity service models including our PROMPT education program, NeoResus program, K2 Infant Guardian CTG system, and coming soon, the Athena e-maternity record. We promote use of the full scope of practice with flexible work arrangements and opportunities for innovative midwifery staff to take on leadership roles and progress quickly up the career ladder.

We provide a range of maternal services in our hospitals including antenatal, birthing and postnatal care.

There are 18 maternity sites across the regions, with Midwifery Group Practice available at 10 of those sites. We operate a specialist model of care at our six major regional hospitals and GP Obstetrics at 11 maternity sites.

Midwifery and Obstetrics Emergency Telehealth Service

Our Midwifery and Obstetrics Emergency Telehealth Service (MOETS) is a 24/7 service that supports country clinicians caring for antenatal and intrapartum patients across our hospitals and health sites.

Support includes:

Consultant obstetrician advice via the regional on-call system

Maternal and neonatal transfers

Clinical policy advice and guidance

Care planning advice and decision-making

Escalation of care and clinical conflict of opinion

Second clinician reviews of Cardiotocographs (CTGs)

Second opinions

Perinatal loss and bereavement care advice

Virtual bedside support during obstetric emergencies

Support to non-birthing sites for unplanned maternity and gynaecological presentation

WA Country Health Service has a strong network of public hospitals, health services and nursing posts located across rural and remote Western Australia. Our core business is to provide quality, accessible health services to people living in large regional centres to small remote communities.

It's an exciting time to join our Bunbury team. Scan the QR code to learn more.
